

Medicine industry in Bangladesh.

Assalamualaikum Everyone,

I am Mehedi.....and university id 2102016.

Thank you maam ,goving me this wonderful opportunity.

Today we are here discribe **Medicine industry in Bangladesh**, so far my team member has already discussed Medicine manufacturing, Research and developing, export growth, contribution for national economy...

So overall we can say...

The medicine industry in Bangladesh has made remarkable progress over the years.

Drug Manufacturing: Bangladesh has become a major player in the production of drugs .and country has earned a high-quality medicines at competitive prices.

Export Growth: Madicine industry contribute not only the national economy but also golobal healthcare accesbility.

Research and Development (R&D): The industry has been investing in research and development activities to create new drugs and improve existing ones.

Contribution to the National Economy: The medicine industry has become a important contributor to the national economy **in terms of** revenue, employment, and foreign exchange earnings.and It is reducing imported medicines.

So we can again say

The medicine industry in Bangladesh has made remarkable progress over the years.and it improve day by day...

That's all for today, thank you every one for giving your attention, special thanks to my honorable course teacher...
